

Bug-A-Boo Pest Control

Date: _____

Time: _____

Bug-A-Boo Pest Control will be entering your unit to conduct a pest control inspection and insect baiting program. The service technicians will need access to the plumbing voids under the sink in the kitchen and bathroom(s).

You will not have to empty your cupboards or cabinets for this particular service. However, it would help if you would remove everything from the tops of the refrigerator and stove so that we can move the appliances.

In the event you are seeing insects, please leave a note for the service technician detailing where you have noticed the problems.

Please do not use any sprays (i.e. Raid) or other pesticides around the baited area. Also, no strong cleaning products.

Please do not expect immediate. We do not want to kill the insects right away. We want them to feed on the bait, carry it back to the other insects so that all of them are eliminated.

Thank you for your cooperation.
